# LOCAL REDISTRICTING

**With the completion of the Federal decennial census, localities in Virginia are required to review and modify district boundaries.**

**The redistricting process must follow these principals:**

- Districts shall be composed of contiguous and compact territory; and
- Districts shall be so constituted as to give, as nearly as is practicable, representation in proportion to the population of the district; and
- Shall use the most recent decennial population figures from the Census, as adjusted by the Division of Legislative Services pursuant to § [24.2-314](#). The census data for these redistricting and apportionment purposes will not include any population figure that is not allocated to specific census blocks within the Commonwealth.

Public Process can follow two paths:

1. 60-90 day public comment process
2. 30-45 day public comment process with Attorney General certificate of no objection

*This does not include the additional time for notice of changes to voters by mail.*

# LOCAL REDISTRICTING

Precinct/Polling Place boundaries are similar to Districts:

- Clearly defined and clearly observable boundaries
  - *Geographical and physical features, such as arterial roadways – use of 2020 census tracts meets this requirement*
- Composed of compact and contiguous territory
- Equal Representation
  - *Achieve deviation of no more than 5% +/- in each district*
- Preserve Communities of Interest
- Voter Convenience and effective election administration
- Minimize split precincts or incorporated towns

## LOCAL REDISTRICTING

- 20 precincts in the County, not including additional early voting sites
  - Maximum range of 5,000 voters per precinct and no more than 4,000 voter turnout
  - Two, current precincts exceed or close to 4,500 registered voters
  - No precinct currently exceed a turnout of more than 2,000 voters
- Process will establish a separate precinct for both Remington and The Plains
- Each new precinct will cost approximately \$3,500 in annual costs and \$26,600 in one-time costs. *Does not include any capital costs to ensure appropriate access.*
